MAKING THE DIFFERENCE

OMEGA
VIRTUAL **WALLET**

MANAGE AND CONTROL ALL RECHARGE TRANSACTIONS

Increase your business and your customer satisfaction using global recharges.

The technology exists, market have begun to emerge, and the first agreements between operators, banks and shops are taking place.

Instead of going to your bank's ATM, withdrawing cash and placing it in your physical wallet, with a "virtual wallet" you go to an online bank and transfer money to your "virtual wallet" for shopping or transfers cheaply and instantly worldwide.

Imagine connecting merchants and customers in the sale process without coins or bills... and without credit or debit cards.

Omega Virtual Wallet provides telecom companies a way to offer multiple service options. Omega Virtual Wallet platform functions as middleware that allows partners access to our network and different ways to control them.

Our Omega Virtual Wallet solution gives you a "virtual wallet" that helps you to do anything without a physical wallet and also from the comfort of your home.

Allows the retail sale of telecom services through third party companies with a determined amount of high volume sales.
